smileynova

Our Portal Setup

can either build a customized portal for you or integrate your existing portal with ours

- We offer comprehensive support in setting up your operating system or management portal for clear aligner case management.
- Our team helps ensure seamless integration with your existing infrastructure and processes, enabling efficient case tracking and patient data management.
- With our solutions, you can streamline workflows, reduce errors, and enhance overall operational efficiency.

PROCESS

Step 1

Provide us with your logo and VI files.

→

Step 2

Test our demo portal to experience its features.

→

Step 3

We will customize a dedicated case management portal for your practitioners and deliver it to you.
